CINNAMOMUM CASSIA	CINNAMON	WATER SOLUBLE POLYPHENOLS
TAGETES ERECTA	LUTEIN	WATER DISPERSIBLE LUTEIN GRADES

Sustainability

- Herbal Raw materials required for processing are sourced from farmers through contract farming model.
- Extraction process is powered by solar energy since the group has big name in solar energy plant in India
- Entire factory has rainwater harvesting to enrich the ground water level.
- At Manipal, another effective green initiative is the extensive planting of trees.
- The fully functional Effluent Treatment Plant at Manipal Natural manufacturing facility uses multi-stage evaporation to ensure zero discharge of effluents.
- Manipal Natural is engaged in the entire spectrum of activity right from the cultivation of medicinal plants, their processing and extraction. The success of any herbal based product is dependent on the ready availability of high quality medicinal herbs. Keeping this in mind Manipal Natural Planned for large area of contract farming. This will ensure the availability of quality raw material and also helps Manipal Natural to give back to society as part of Corporate Social Responsibility to the most deserving class of people in our society viz the farmer.
